### **I Know Mo!**

I managed to destroy my shoulder. I tore tendons, muscles and broke my collar-bone. I was living out of state and decided to let my injuries heal by themselves. Four months later, I returned to Teton Valley. My daughter insisted that I visit Dr. Brown. I appreciated his candidness about what he felt he could fix and what might be permanently damaged. I had surgery in October and unbelievably, I'm pain free. I'm continuing physical therapy per doctor's orders. I would recommend Dr. Brown to anyone. I think he's terrific!
